MARKETING TIP

Consider HelpPRO the price of entry to private practice.

The rule of thumb is you need to reach out to the average person seven times to get their attention and then get them to call or email you. Years ago the rule of thumb was three times, but in today's high tech world when we are bombarded with communications, it takes seven individual contacts.

Consider HelpPRO number ONE.

The cost is nominal. You get your comprehensive professional information on the Web like having your own web page. Professionals use HelpPRO because it is trusted, comprehensive, and reliable.

HelpPRO Thanks Partners

Please [email](#) us the names of organizations that work with people with illness or disability with whom you would like to see HelpPRO partner.

HelpPRO offers these organizations including the Autism Society, MS Society and others, support making referrals, custom therapist finders, announcements in our newsletters, and added search features such as telephone counseling as an option to help those housebound with MS.

Touching stories these organizations tell will warm your heart. For example, a woman calls the MS Society "Please help. My 70 year old mother was just diagnosed with MS. Mom is our rock -- always on top of her game and full of energy. We have so many questions.

- What is the progression?
- Are we kids at risk for MS?
- How will mom do emotionally?
- How can we support and help Mom?

The MS Society suggested counseling support for the family, and then used HelpPRO to find a therapist for mom with expertise with MS patients and their families.

Thanking You for Thanking Us

It's nice that recently we have received a lot of thank you messages from you. Like this one from a LMHC:

"I cannot believe the impact of being part of HelpPRO. I assumed that I would get a couple of calls a month but it has been overwhelming."

And this from a licensed social worker:

"Thank you! You run a wonderful website, and I'm glad to be part of it! I get so many referrals and such interesting, motivated people. For the price, I have found nothing else like HelpPRO!!"

These unsolicited, spontaneous notes of appreciation are most welcomed because they require that you take the time to let us know how good you feel about what we're doing.

Thanksgiving just seems like the right time to thank you.

Please [email me](#) with any feedback. I really do want to hear from you. Good and bad. We need your ideas and suggestions to keep improving our service.

Regards,

Bill
