

How to Use ReGroup HIPAA Compliant Video For HelpPRO Listed therapists.

Step 1: Create Your Regroup Therapy Account at www.regrouptherapy.com/register.

This takes less than one minute and there is no obligation to use it right away.

Step 2: Schedule a Session at the Regroup Therapy Dashboard

- Go to your Regroup Therapy dashboard: www.regrouptherapy.com/dashboard and login if you are not already. Click “Menu” and then “My Client” and add your client.
- Once you and your client set a time to ‘meet’ – click “Menu” again and then “dashboard” to Schedule your session.
- That session will now appear in your dashboard. Note the PIN And click “Start Session Now” up to 15 minutes before the appropriate date/time.
- Your client will receive an email from Regroup Support with the session PIN and a direct link to his/her session OR your client can join the session directly from your HelpPRO listing under “accessibility” by entering his/her PIN up to 5 minutes prior to start time.

Step 3: Show Your “Secure Video Capability” on Your HelpPRO Listing

Login to your HelpPRO account. Under "accessibility" check the box for "Secure Video Counseling (Regroup)" to trigger an icon to appear in your HelpPRO listing showing you have secure video session capability.
