Imagine a website where...

- A woman, overwhelmed by anxiety, finds a professional to do an in-home evaluation.
- Parents, concerned about their child’s development, find a therapist who can evaluate him for learning disabilities.
- A college student, concerned about her friend’s weight loss, finds a nearby group for eating disorders.
- A couple finds an experienced marriage counselor in their community who accepts their health insurance.
- A social worker in a busy hospital prints a list of local mental health professionals and groups for the family of an Alzheimer’s patient.

“A few years ago it would have been impossible to get a list of therapists who match your specific needs. Now there is a place to find the most comprehensive information about thousands of therapists and services across the country.”

— Bill Blout, LICSW, President
